

PopperSeek Product Portfolio

Navigation, inertial sensing, sensor fusion and evaluation platforms.

FLAGSHIP NAVIGATION PLATFORM

X-Series Navigation Engine

An integrated navigation and embodied-state platform for autonomous and special-mission mach

INERTIAL SENSING

IMU / AHRS

Compact inertial measurement and attitude reference building blocks for reliable motion awar

NAVIGATION CORE

INS / GNSS-INS

Continuous navigation architectures that combine inertial sensing with satellite and aiding

SENSOR FUSION

Multi-Sensor Systems

Integrated sensing systems that turn multiple physical inputs into a coherent machine state.

EVALUATION PLATFORM

Reference Kit

A practical evaluation path for teams selecting, integrating and validating PopperSeek techn
